

The Borough of Keyport is a walkable municipality with scenic views of the Raritan Bay. Residents and visitors access the water, sit, stroll, and fish from the waterfront during all seasons and types of weather.

What you won't find are those folks at Fireman's Park boardwalk and parking lot during high tides and storms. The area has signs posted to remind people that the area is subject to flooding.

Making this area as resilient as possible is one of the main priorities for the borough.

The Borough received a \$450,000 federal award in 2022 toward work needed to replace the bulkhead, raise the boardwalk to match the elevation of the promenade while adding a walkway out to West Front Street and elevate the parking lot. Work can be done in phases with the estimated cost for the complete concept plan expected to run between \$3 million and \$4 million.

The application for Green Acres funding, which would be one of various funding sources, requires a Public Hearing and community comment and input.

Residents can and should share their ideas on this project. Visit Keyportonline.com to review the:

- concept plan,
- cost estimate,
- environmental impact statement and
- scope of improvements

Your input is desired and will be useful in detailing the improvements. Please complete the survey and **return it to the borough by February 27, 2023** in order for your input to be included at this stage of the process
