Re: NJDEP Waterfront Development Permit (In-water) Application
Applicant: Jersey Central Power & Light Co.
EH Werner-Freneau-Keyport 34.5KV (E31) - TWR 246 & 247 (Emergent Replacement)
Aberdeen Township and Keyport Borough, Monmouth County, New Jersey

Dear Sir/Madam:

This letter is to provide you with legal notification that an application for a waterfront development individual permit has been submitted to the New Jersey Department of Environmental Protection, Division of Land Use Regulation for the development shown on the enclosed plan(s). A brief description of the proposed project follows: the project includes the replacement of two (2) leaning lattice towers located across Matawan Creek.

The complete permit application package can be reviewed at either the municipal clerk's office in the municipality in which the site subject to the application is located, or by appointment at the Department's Trenton Office. The Department of Environmental Protection welcomes comments and any information that you may provide concerning the proposed development and site. Please submit your written comments within 15 calendar days of receiving this letter to:

New Jersey Department of Environmental Protection
Division of Land Use Regulation
PO Box 420, Mail Code 501-02A
Trenton, NJ 08625-0420
Attn: Aberdeen Township and Borough of Keyport Bureau Chiefs

Should you have any questions or require additional information, please do not hesitate to contact this office.

Sincerely,

Kristin Wildman
Senior Environmental Consultant

PROPOSED GEOTECHNICAL BORING LOCATIONS SHOWN ARE APPROXIMATE AND MAY NEED TO BE ADJUSTED AT THE TIME OF WORK PER FIELD CONDITIONS. IF FIELD RELOCATION IS REQUIRED, DISTURBANCE TO VEGETATION SHALL NOT EXCEED FIVE FEET IN WIDTH FOR ACCESS. IF FIELD RELOCATION IS REQUIRED THEN THE PROPOSED GEOTECHNICAL BORINGS SHALL BE MAINTAINED WITHIN 20 FT. OF EXISTING UTILITY POLES.
