

To Keyport Residents,

Due to the significant snowfall from Winter Storm Hernando, the Borough of Keyport Public Works Department, in coordination with outside contractors, will be working around the clock to remove excess snow from curb lines. This effort is necessary to widen roadways, improve visibility, and restore on-street parking wherever possible.

Beginning tonight at 6:00 PM, Icon Construction will commence the first phase of snow removal operations. Crews will be working continuously (24 hours per day) until this phase is complete. Please note that exact start times on each street may vary depending on progress and conditions.

The following streets are included in Phase One:

1. Second Street – from Stone Road to Church Street
2. Third Street – from Fulton Street to Broad Street
3. East Front Street – between West Front Street and Church Street
4. Warren Street – from Manchester Avenue to Main Street

We respectfully request that all vehicles be removed from these streets during the scheduled work to allow crews to perform operations efficiently and safely.

Residents of Second Street may utilize the Keyport Senior Center parking lot during this time. All vehicles parked in this lot must be removed by 8:00 AM the following morning.

We appreciate your patience and cooperation as we work to make our roadways safe and accessible for all residents.

Thank you,  
Borough of Keyport Public Works
